PFG Activities

- Develop NSG Roadmap for GEOINT portrayal
  - Harmonize with DGIWG Portrayal Roadmap
- "To Be" GEOINT portrayal architecture
  - Portrayal register schema and information model
  - Operational portrayal register
  - Populate register with symbol sets and portrayal rules
  - Register governance process

PFG – Types of Standards

- Portrayal architecture
  - ISO 19117, Geographic Information Portrayal
  - ISO 19135, Geographic Information, Procedures for Item Registration
  - OGC Styled Layer Descriptor (SLD)
  - OGC Symbology Encoding (SE)
- NSG/DGIWG/NATO standard implementation of these standards
- Symbology development activities
  - Symbols and portrayal rules for NSG Mission Specific Data
  - Symbols and portrayal rules for Joint Operational Symbology (MIL-STD-2525)

PFG Issues

- Symbology – hardcopy and softcopy
- GEOINT Portrayal Roadmap
- Web-enabled vs. stand-alone non-networked architecture
- Liaison with DOD Symbology Standards Management Committee (SSMC)
